Bioscience Methods (ISSN 1925-1920) is an open access, peer reviewed journal published online by BioSci Publisher.

The journal publishes all the latest and outstanding research articles, letters and reviews in all areas of bioscience, the range of topics including (but are not limited to) technology review, technique know-how, lab tool, statistical software and known technology modification. Case studies on technologies for gene discovery and function validation as well as genetic transformation.

BioSci Publisher is an international Open Access publisher specializing in bioscience methods, including technology, lab tool, statistical software and relative fields registered at the publishing platform that is operated by Sophia Publishing Group (SPG), founded in British Columbia of Canada.

Open Access

All the articles published in Bioscience Methods are Open Access, and are distributed under the terms of the [Creative Commons Attribution License](#), which permits unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited.

BioSci Publisher uses CrossCheck service to identify academic plagiarism through the world's leading plagiarism prevention tool, iParadigms, and to protect the original authors' copyrights.
